

THE NORTHERN TRIBUNE
AN INDEPENDENT WEEKLY
NEWSPAPER

Published every Thursday at Grande Prairie, Alberta. The Tribune's aim is to thoroughly "cover" the local news field, to balance all sections and parties; also to aid in the development of the Peace River Country and help to make it "the western Empire" many advantages as a homeland. All news is printed without intention or distortion. The Tribune's opinions are expressed only in its editorial column.

Letters for publication are welcomed. A pen name may be used, though correspondents must also sign their proposed articles. Letters for publication, but as evidence of good faith. In publishing a communication, The Tribune does not imply agreement with any opinion contained therein.

THE COST OF PHONES**SHOULD BE LOWERED**

In writing for the lowering of phone rates the Grande Prairie Board of Trade has taken up a logical position: That one or any department of service can be expected to increase its rates which existed before the general drop in prices is, to say the least, unfair.

At the rate of 25¢ per month cut owing to the cost, which is \$2 a year. If conditions continue, more are bound to be taken out. The Tribune has been told by several persons that had the prices been reduced to meet the times many farmers would have been bankrupted.

As it appears at this writing, it may be that the whole system operates in this manner. It is the demand of the public that the government sees fit to meet the condition and cut the cost of telephone service.

As we write this is the recent meeting of the Grande Prairie Board of Trade, the taking out of so many phones from the system, and the service just to that extent to those owning phones in the town.

In the other telephone department, when their attention is drawn to the condition, will view the whole question in a different light, part of the province in the light of the low prices which obtain. Better take less than have phones taken out altogether.

CONGRATULATIONS TO GRANDE PRAIRIE DISTRICT BOYS

Congratulations are coming to Sesame, Brea and Douglas Clarke for the splendid showing they made at the Toronto Royal. To be up in the first ten at the end of the competition is considered quite an achievement but to win one, two, three in the wheel and hammer, and in the wheel and hammer championship, is an honor which seldom comes to any one district.

The victory reflects the ability of this country to grow the highest type of grain, but also speaks well for the energy and power of these boys.

From time to time the veteran exhibitors of this district will be forced to retire from the field and it is to be hoped that the young ones who will ably represent this country when the time comes will bear the name of the great Peace River country before the eyes of the world.

The Grande Prairie Seed Association are to be congratulated having this vision before them and truly give the boys of this district an opportunity to show their products.

THE NECESSITY OF A BRIDGE OVER THE BIG SMOKY

The trouble which people have had since the Big Smoky began in early October is now over and the people are returning to the necessity of having a bridge built across the river.

Due to the mild weather and the deep snows the river has not yet properly frozen over.

Alex Williamson of Sturgeon Lake, who was sent to the bridge, informed The Tribune that he was afraid to take a chance with his heavy truck and tried to get across the river with great difficulty.

That is why the building of the bridge should not be delayed, and that is the opening up of the bridge to the public.

The road to High Prairie, Alberta, is being shortened the mileage to Edmonton as it does by hundreds and thousands of miles over the road to a point that will amply justify the building of this bridge.

Trade and other traffic means money to the country. This trade can only be obtained through proper portage and the building of anything more aggravating to the traveling public than unnecessary delay.

It is to be hoped that the bridge can be built at a minimum cost. People need work. Here is one spot where a considerable number of the unemployed could be utilized.

upon the time to give her ladyship her first lesson.

The mare was harnessed and all, on second thought I will. His name? Bill Callahan. Now Bill isn't much of a jockey but he's got a nice horse.

Pete Nico was on the bridge and when he had looked everything over he said, "I think he's got a big dray horse." "What?" shouted "Get up!" Now the "Lady" had no intention of "getting up". In fact, judgment was on him that he was prepared to do anything but. She started to kick, finally rolling over the longsides. "I'm sorry," she said, "but I am in this position. Her Ladyship gave one of the finest exhibitions of footwork with which I have ever seen. I am grateful that I would not be missed when the time came to serve."

"There was considerable anxiety in Pete's "Whoosh". In fact he waited it many times, and twice some. He had to wait because he had moved the car and the last was not "whoosh" either. Before we entered the house Bill informed me that he had a roast on tap and some of the look-ons in the room were invited to have a taste. The roast was on fire. "Don't eat," exclaimed Bill, and he threw the pan and meat out of the window and took the smell away.

Now the irony of it all was that great care had been taken in cooking the roast, and the meat was gray over the top at proper intervals.

It so happened that Bill, before stepping out of his house to visit his neighbor, had stepped on a nail and was cut on both feet. And he had to go to the hospital to get the bandages on the feet.

As I watched the progress, I said to myself, "Well, horses are very important, but men are more important." Then I saw the "Lady" get into the manner horn and it was only natural that she should regard being hit by a horse as a most serious matter. When she got into the manner horn or in other words to the level of the ordinary plug, "Lady Guard" is in the same position as the man in the circumstances. It struck me that "Lady Guard's" point was well taken.

She is a mare which has had the life of a thoroughbred and without warning hitch her up to a big sled truck, which meant reducing her to a mere pony. To make a story short, with the aid of some of the look-ons in the room, she was soon in the manner horn and out again that "there is many a slip between the cup and the lip."

To be candid, I do not know who fed the horse. Spies were very numerous, however, and without warning hitch her up to a big sled truck, which meant reducing her to a mere pony. THE NORTHERN TRIBUNE**People's Forum**

Publication of any article or communication in this column does not imply that The Tribune agrees with the opinion contained therein.

Car owners of this district are thinking it about time that something was done with regard to car licenses, that something would be done before the end of the year. Why should the car owner in the country have to pay the same rates as the city owner? He does not mind a little extra money for his plates.

Should the car owner in the city have to pay the same rates as the car owner in the country?

The present high rate causes many to think of getting a license rather than hitch up a team and use the roads for the upkeep of the roads in the cities, but which are denied him in the cities.

We hope The Northern Tribune will start something in this direction and we are expressing the feeling of numerous other citizens.

One such plan suggested would be to issue a six-months license, commencing in May, when the roads are beginning to get passable.

Yours truly,

BERT FUNNELL,

HEAVY DOCKET AT SITTING OF THE SUPREME COURT

(Continued from Page One)

An accident. That he had gone to the town to get a rifle bolt which he believed was in the gun owned by Cookshaw.

In passing judgment, His Lordship said the defendant failed in the duty of the law in the absence of any motive whatsoever for setting the fire.

The accused said that he found the body of his Lordship "not a vestige of evidence that the man was ever there."

Unhappily, who was severely injured, was not present to give his version of the accident.

William McCutty was found guilty of perjury. T. W. Lawlor for the defense, said he was not present when the defendant set the fire to a man he knew.

Lawson McLeod was sentenced to a charge of perjury. T. W. Lawlor for the plaintiff and D. W. Patterson for the defendant.

William McCutty was sentenced to a charge of perjury. T. W. Lawlor for the defense, said he was not present when the defendant set the fire to a man he knew.

Mike Karashal, who was accused of shooting a horse, was acquitted.

Peter Verrier and Louis Stautter, dressed as a man and a woman, were charged with the offense.

William McCutty was sentenced to a charge of perjury. T. W. Lawlor for the defense, said he was not present when the defendant set the fire to a man he knew.

There were also several cases tried and won.

The balance of the proceedings will be in next week's issue of The Tribune.

NOTES FROM THE EVENING

Jack James, a fine boy and we all like him, but with that costume we would hate to meet him in the dark. He was dressed up handsomely in a tuxedo and a bow tie, and he was coming or going, unless he had his coat on, with some of us in line with some stationary object.

Anyone who can handle a bunch of kiddies for a while without losing his temper should get an extra dollar.

Frank Guthrie is long-suffering.

One of the most difficult things the judges did, was to award the evening.

On Saturday night, Mr. Schilder, the manager, dressed up handsomely in a tuxedo and a bow tie, and he was coming or going, unless he had his coat on, with some of us in line with some stationary object.

So far as I know, it was the first time that the Beasant twins appeared in the same outfit differently dressed.

It is the second time that the twins have been dressed up handsomely in a tuxedo and a bow tie, and he was coming or going, unless he had his coat on, with some of us in line with some stationary object.

Would anyone kindly tell us what is the most effective procedure when two dogs pitch the space one is standing on, and where to settle on their little differences.

Frank Donald looked like a millionaire between the new overcoat and light suit he was wearing. He was a feather in the hat of a color which heightened the general color scheme.

Many witnesses were called.

Frank H. Kerwin, who was up on the stand, was given a suspended sentence for assault and battery.

William McCutty was found guilty of perjury.

UP-TO-MINUTE NEWS from TRIBUNE'S CORRESPONDENTS

Wembley District News of Interest

Vol. L WEMBLEY, NOVEMBER 29, 1932

WEMBLEY VERY PROUD OF WHEAT KING'S RECORD

Austin Wembley featured in radio news this week when it was announced from the International Grain Show in Chicago that the Wembley boy was again crowned king in the world's wheat team. This is the fourth time in six years, with his third win, he came into permanent possession of the trophy, donated by the Union Standard and Trust Co. of Chicago.

His record in wheat winning and chessmanship is an enviable one, and covetous by many. Here it is:

1929—Wheat king and oats king.
1927—Wheat championship and oats king.

1926—Wheat championship and field peas king.

1930—Wheat king and field peas championship.

1931—Wheat king and field peas championship.

1932—Wheat king.

Erie Anderson, an adopt pup of Mr. Trele, has also brought honor to his adopted country and this coming month will be the first to do so in timidity. Both Mr. Trele and Mr. Anderson hope to compete in the world's wheat and chess tournaments. We wish them well and a correspondence success and victory.

WEMBLEY WINS GRANDE PRAIRIE-WEMBLEY DEBATE

Last Friday night witnessed a splendid debate on "Co-operation vs. Secularism." Education between Grande Prairie and Wembley high schools, the former represented by George Steiner and Victor Mackie and the latter by Murgers Archer and Jack Rogers.

It was clearly seen by the audience that the Grande Prairie team, Mr. S. A. Saskatoon, Mr. Jas. Stern of Wembley and Rev. N. Chapel of Grande Prairie were far superior in their debating upon the winning team.

While the Wembley debaters excelled in one or two points, the Grande Prairie team seemed in debate qualities.

The judges, after careful deliberation, unanimous awarded the laurels to the small margin in the Wembley team, who took the affirmative in argument for co-operation.

Mr. Trele, in his closing of the judges, offered a very fair and helpful criticism on the weaknesses and strengths of the debaters in their presentation of the matter.

This win for the Wembley High School representatives will battle them to the top in the Grande Prairie debating league with Beaverlodge and Hythe. Grande Prairie and Spirit River, Mrs. J. H. Sanders teacher at Grande Prairie, who accompanied the team from Grande Prairie, has donated a cup to go to the winning team in the finale.

BADMINTON TOURNAMENT WEMBLEY-BEAVERLODGE

A badminton tournament was staged here last night (Monday) when nine Beaverville players clashed with an equal number from Wembley.

From Beaverville were Mrs. S. H. Andrews; Misses H. Sloan, Eileen Albright, Monica McGinn; Mrs. G. D. Morris; Charles Davis, Geo. Vogt, Wayne Stanley, and Keneth Dalgleish.

Winners in men's doubles, G. Vogt and C. Davis; women's doubles, Mrs. Rogers and Miss Bettie; in men's

GOODWIN

Goodwin district has had a taste of real winter for the past ten days. The referee here since 1914 and this is the first time in memory snow has fallen continuously for nine days.

The stock has been a very busy creature in this district for the past week and the weather is still the same. The weather, Mrs. A. Steiner, Mrs. H. Henry and Mrs. R. Knobbe are the proud mothers of baby boys.

Mr. Fred Dreger has had a residence, and is now at the home of Mr. and Mrs. F. G. Baker, Mr. and Mrs. J. A. Then and family visited Mr. and Mrs. W. Whiles on Tuesday.

Mr. C. Crowe is busy hauling firewood these days. Bert says better a long time than the snow in the bush.

Mr. Newman was wednesday.

The Goodwin ratifiers are very pleased with the arrangements made by Mr. McQuarrie arranged so that they could work some of their tasks in their own community.

J. and B. Lenes were Sunday visitors at Newell on Tuesday last.

Goodwin had a very bad attack of cold that we wish were somewhere near the Gulf of Mexico.

A number of visitors around here and Tepee Creek are hauling their logs to Webster to have them cut.

Keeping pace with La Depression: Peace River honey, 2 teaspoons 1 tablespoon of vinegar, a pinch of salt and a dash of pepper.

These last few days have been so cold that we wish we were somewhere near the Gulf of Mexico.

The Goodwin ratifiers are very pleased with the arrangements made by Mr. McQuarrie arranged so that they could work some of their tasks in their own community.

WORLD NEWS IN PICTURES AND ITEMS IN GENERAL

PRESIDENT AND PRESIDENT-ELECT IN CONFERENCE

A dramatic meeting, unprecedented in the history of the United States, is shown in this composite photograph, showing President Hoover and President-elect Franklin D. Roosevelt in conference at the White House yesterday, on the question of the debt war. In accepting the President's invitation to sit on in the debt deliberations, Governor Roosevelt made it clear that the responsibility for any action taken in the matter at this time must rest solely upon the shoulders of the present administration.

PRINCE OF WALES IN ANCIENT CEREMONY

His Royal Highness the Prince of Wales is shown in the picture as he went to the Mansion House residence of the Lord Mayor of London to receive a grant of livery from the City Corporation to the Honourable Company of Master Mariners, of which he is the head. The Prince is making a speech while the Lord Mayor of London listens.

PREFERENCE FOR CANADIAN PORTS WHEREVER POSSIBLE FOR WHEAT SHIPPERS

Winnipeg, Man.—All things being equal, western exporters of grain will continue to use Canadian Atlantic and Pacific ports for the exportation of wheat to the United Kingdom.

Leading grain shippers interviewed by the Canadian Press stated that where possible Canadian ports will give the preference in handling Canadian grain for shipment overseas.

BUILD UP PAYING BUSINESS

Frank Beuchat, a munition of the U.S. Wisconsin, lost his job with the advent of the "talkies" and the depression, but he has built up a paying business by painting signs. Each soldier is hand-painted with the aid of a magnifying glass and all are signed and dated.

He has cast and painted numerous armatures and figures, which he believes can be used to illustrate soldiers in training.

In a reminiscent mood the other day, President Hoover received the full benefit of a soldier sitting down on his tummy. So you can cross that off the list of ways to reduce.

ALL ROADS BARRED

Virtually a woman without a country, Elizabeth Bryan Kildinan is shown in the picture. She has been in England for months. The woman has been a prisoner while the United States, Turkey and Great Britain refused to accept her. In Ireland, Mrs. Kildinan married Turkish-born Armenian, who served with the Canadian forces in the Great War. After separating, Montreal and she went to Detroit, where she was seized for illegal entry.

JOHN GALSWORTHY

Here is a recent photo of John Galsworthy, celebrated English novelist and dramatist, who has been awarded the 1932 Nobel Prize for literature.

Few persons in Europe or America are as well known as Galsworthy, whose award is the second to be given since the "Sagittarius Award" was established in 1924.

It is doubtful whether any living literary artist deserves it more than the author of "The Forsyte Saga"—a veritable epic of English morals, manners and customs during a period covering several generations.

Mr. Galsworthy has not been unduly influenced by the school of thought that art and letters is what is called "artificial." His work is based on his own ideals and conceptions. He has held the mirror up to nature and reflected the lives and aspirations of men and women—capitalists, men of affairs, fashionable ladies, cabinet ministers, judges, lawyers, wage workers, etc., in his realistic and sympathetic manner.

No social movement has escaped Galsworthy's keen eye, and no important question has been overlooked by him. But he has not been consistently didactic, nor propagandist. He has dealt with labor abuses, the law's delays and technicalities, class divisions, conflicts of interest, etc., in a manner that his physical idealism has not betrayed him into sentimentality or distortion.

His advocacy of specific reforms he wisely has reserved for frank essays.

GRAIN SHIPPED THROUGH MARITIMES IN DECEMBER

Saint John, N.B.—A million bushels of grain are moving eastward for export through this port now. In December, it was estimated, 1,000,000 bushels of grain were shipped via Saint John. It was announced by Harbor Commissioner Thomas Vagle on his return from Montreal, where he interviewed railway and steamship officials and some of the leading shippers.

LOAN IS SUBSCRIBED

Saint John, Que.—Beyond confirming the statement by Hon. E. N. Rhodes, Minister of Finance, that the new Dominion loan of \$80,000,000 had been fully subscribed, the central campaign committee had nothing definite to offer. Until all the applications had been totalled it would not be possible to state the extent of the over-subscription.

Problem of Introduction of Automatic Car Coupling

This article has been translated from Esperanto text furnished especially to the Canadian Esperantist by the International Labor Committee of the League of Nations.

The introduction of automatic car-coupling is one of the many labor problems which the International Labor Committee is studying for its study and experiment. Working on this is a special commission, of which the present technical secretaries met recently at the International Labor Office. The chief participants were Mr. Grindley (England) as representative of the British Trade Union Congress, Mr. Ackermann (Germany) as employer, and Mr. Nathan (Netherlands) as employee.

The commission unanimously accepted the grave problem of drawing up international arrangements between the different organizations founded among international societies whose duties will be to make financially possible the experimental linking of the automatic rail-linking system to the automatic linking of railway coaches. These projects will be submitted to governments for acceptance or rejection.

It is well known that automatic linking is much superior to the screw-linking used on European railways.

The most important and growing demand is the linking of the great danger to railway employees. With the present system they must get out of the coaches to change them. Moreover, the accident occurs yearly because of this work, the unfortunate victim being either killed or severely injured.

It is absolutely necessary to the railway men that this automatic coupling be made possible.

On the other hand, it is calculated that the automatic coupling will be economically beneficial in the operation of the railways. The cost of one can foresee the moment when with the progressive increase in the weight of the trains the screw-linking will no longer be sufficient to make traffic safe. Lastly, the manufacturing of the apparatus and the cost of the same will give work to a very great many unemployed. In Europe alone, exclusive of the Soviet Union, it is estimated that 1,000,000 to 300,000 workers would be employed for five years in this work.

It is the opinion of the committee, then, for introducing as soon as possible the automatic linking on European railways.

The writer of this article is the author of the proposal made by Mr. Albert Thomas, the Minister of Labour, to the International Labor Office, not long before his death, to study the possibility of forming an international association for technical experiments.

The problem is essentially international, the railway traffic is international and such change can be introduced at the same time only upon such European railways as have a

LAST YEAR'S STANLEY CUP WINNERS DETERMINED TO REPEAT

If determination has anything to do with the winning of the Stanley Cup, coveted trophy of the National Hockey League, the Toronto Maple Leafs will probably repeat their performance of last year. Here in the 1932-33 aggregation, arrayed in new uniforms, just before their first game with Boston, which ended in a draw.

EVOLVE PLAN IN EUROPE TO AID THE UNEMPLOYMENT

PARIS, FRANCE.—The creation of an economic committee by Great Britain, France and Germany which is designed to assist in the return of prosperity and in coping with the unemployed problem, was announced by Belgian Prime Minister, who will be in charge of its operations.

"We foresee," said M. Dubois, "a return to normality which will be the result of the development of industrialization."

Employed in the smaller developed countries will be given work, while the jobs in the larger countries will be relieved by the operation of foreign firms.

The plan was described as a combination of British capital and German industry, with France contributing the subjects of insurance, security and non-competition.

The total cost of the consortium will be the offer of a loan of 17,000,000 francs (approximately \$860,000) for the development of railways in Poland, Romania, Iugoslavia and Portugal.

The Paris edition of the New York Herald Tribune said France and Great Britain would provide 40 per cent of that loan, each and Germany would furnish 20 per cent.

The consortium will consist of three syndicates—French-German financial bankers, British-French and German bankers, and a Franco-German syndicate designed to carry out recommendations of the reconstruction group in the electrification projects.

M. Patonot said the organization was purely an economic agreement.

NEW DUTIES NOW EFFECTIVE

LONDON, Eng.—The Ottawa agreements will implementing the United Kingdom's new trade pacts with the Dominions has become law. New duties will take effect at midnight, effective at midnight, November 16, replacing those of the Import Duties Act.

The bill was given third reading by the House of Lords and immediately afterwards obtained royal assent by constitution.

Meanwhile a treasury order was issued extending without limit the existing import prohibitions and special tariffs imposed under the Import Duties Act. Another order made the preference of the new law.

The bill was given third reading by the House of Commons and immediately afterwards obtained royal assent by constitution.

The treasury order continued preferences on goods for all countries except the United States, with the exception of the Irish Free State, which failed to conclude an agreement with the United Kingdom.

However, the continuation of the Ottawa Agreements Act, brought into force at once, concern powers and duties of the Board of Trade and the Board of Trade.

There are 100 items of legislation which require no immediate action.

GRETA GARBO AND RAMON NAVARRO HEAD CAST OF "NATA HARI" AT CAPITOL

Lionel Barrymore and Lewis Stone Support Stars

What is probably the most impressive cast ever assembled for a talking picture will be at the Grande Prairie Theatre on Thursday, Friday and Saturday of next week, when "Nata Hari" will open. Greta Garbo and Ramon Novarro, is the feature attraction.

Not content with placing two of the screen's greatest drawing cards in the leading roles of this remarkable production, Metro-Goldwyn-Mayer has added Lionel Barrymore, who recently won the Academy award for the finest performance of 1932, and Lewis Stone, C. Henry Gordon, Karen Morley, Alice B. Francis, Francis Frederic, Helen Jepson, Eddie Eddison and Frank Reicher. The direction of the picture was entrusted to George Fitzmaurice, who achieved such success with "The Man Who Came to Dinner."

The story of "Nata Hari" is based on the life of the notorious dancer Mata Hari, who was executed by the French firing squad. This is the woman who, it is on this aspect of her life that the plot of the picture is based.
